Please return by July 20.

A Westinghouse inspector, manufacturer of the electrical transformer that blew to the structure. A bird was blamed for the electrical outage that struck Heber noon. Inset shows the damages that occurred from the arching of the transformer.

Hearing Date Set for Mayflower

HEBER CITY—Wasatch County Planning Commission has announced a hearing for the proposed Mayflower Mountain project, and if things work out, there will be final approval given.

Mayflower, after the preliminary hearing, has been working hard to clear up some arguments of dispute that were questioned by the county planning office, and the State Department for Hazardous Wastes.

Apparently, it was determined

by the state department that the tailings which Mayflower project will be building, contains enough toxic minerals that the department has issued a no-building restriction on them, until they have been cleaned up.

Clark Mower, engineer for the Mayflower project, stated that the state and county and Mayflower have been working to come to an agreement on the tailings. Mower said that the Mayflower people have submitted plans for the tail-
